With China opened to commerce, her crowded, unsanitary cities—none of them have either sewers or water works—will become a menace to the health of the world. Small-pox is always prevalent in them, cholera is often epidemic, and plague can be found in every large town. These may constitute the real "yellow peril."

BECKLEY SPEAKS OUT

The Republicans held another big rally in Lakaakao last night, there being over 500 people present. W. H. Kallimal was chairman. The first speaker was Sam Macy. Next came E. K. Liliakalani, Joe Kalama, J. A. Gilman, John Gandall, of Kauai, and Jack Lucas.

The feature of the evening was a speech by F. W. Beckley, Home Ruler and Speaker of the last House of Representatives. Mr. Beckley said he was not a Republican but a Home Ruler but that the true principles of Home Rule lay in the election of the best men to fill public offices. The trouble with the Home Rule party was in the leaders.

The people should vote for men who can run the government and run it economically. Mr. Beckley compared R. W. Wilcox with A. M. Brown and spoke in favor of the latter. When he came to the county clerk he roared—Kalaokalanis to a turn and mentioned the Nakuna incident.

H. E. Murray spoke next and he was followed by J. C. Quinn, George F. Renton, Haila, Isaac Sherwood, Wm. Olkpan, J. W. Pratt, A. Hocking, R. N. Boyd and W. T. Rawlins.

During the meeting stereopticon views were shown on a screen. There were pictures of Governor Dole, Senator Crabbe, Geo. R. Carter and William Henry. The motto "Geo. R. Carter, our choice for Governor," was also shown on the screen.

There has been a marked absence of southerly winds during the past four months, but two days with wind from that direction since the first of June, and while southerly winds are rare during these months this is an unusual record.

The heavy rainfall of the early evening of the 23d (2.32 inches falling at the Weather Bureau in three hours) was local and confined to Honolulu and vicinity. This downpour was more in the nature of a cloudburst than an ordinary rainfall; it was preceded by very clear weather, followed in the late afternoon by a rapid clouding over and a sudden torrential downpour, lasting for three hours, when it ceased almost as suddenly as it began, leaving a clear, starry sky.
